## PROFESSIONAL SUMMARY

Software Engineer and final-year B.Tech (Computer Engineering) student with 6+ months of internship experience in Full Stack Web Development. Proven expertise in building responsive, scalable applications using the MERN stack (MongoDB, Express, React, Node.js) and modern state management tools like Redux Toolkit. Strong focus on modern UI/UX design and efficient performance optimization.

---

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, React.js, Redux Toolkit, React Query, Material-UI

**Backend:** Node.js, Express.js, Java (Servlets, JSP), REST APIs

**Languages:** JavaScript, Java, C#, Python (Basic)

**Databases:** MongoDB, MySQL, PostgreSQL

**Tools & Platforms:** Git, GitHub, VS Code, Eclipse, Postman, npm, Vercel

**Other / MERN Stack Related:** JWT Authentication, Axios, React Router, Responsive & Mobile-First Design

---

## PROFESSIONAL EXPERIENCE

**Full Stack Developer Intern** – Technical Core Engineers (Tcoreng) [Company Profile](#)

**December 2025 – Present**

- Developed high-performance full-stack web applications using React.js and Express.js with a focus on user-friendly interfaces.
- Implemented secure user authentication and dynamic data handling workflows using MongoDB.
- Optimized application performance to ensure smooth functionality across various devices and browsers.
- Collaborated in a team environment using Git and GitHub for version control and efficient development.
- Adopted industry best practices and modern technologies to enhance code quality and application scalability.

---

## PROJECTS

**BookHive – Online Bookstore** [Github](#) | [Live](#)

- Developed a user-friendly online bookstore featuring genre-wise filtering and detailed book descriptions.
- Designed a responsive UI using Tailwind CSS and shadcn/ui for an engaging user experience.
- Integrated secure checkout functionality and optimized the application for high performance.
- Deployed the frontend on **Vercel** and the backend on **Render** to ensure high availability.

**Blogging Website** [Github](#)

- Developed a full-stack blogging platform using React.js, Express.js, and PostgreSQL with secure user authentication and authorization.
- Enabled users to create, update, and delete blogs, with features like comments, categories, and an admin panel for managing content.
- Designed a responsive UI for seamless navigation and enhanced user experience.

**E-Commerce Website** [Github](#)

- Created an online shopping platform with secure user login, product catalog, cart, and order management system.
- Focused on user experience and data consistency while designing and implementing the application as an academic project.

---

## EDUCATION

- B.Tech in Computer Engineering | RK University, Rajkot | 2022 – 2026 (Current CGPA: 8.10).
- 12th (Science) | HR College Mairwa, Siwan.
