PROFILE SUMMARY

I am a final-year B. Tech Computer Engineering student with a strong passion for Full Stack Web Development. I have hands-on experience building modern, responsive web applications using **React.js**, **Node.js/Express**, **MongoDB**, and **PostgreSQL**.

Currently, I am working as a **Full Stack Developer Intern**, where I **develop user-friendly web applications** and **collaborate on code management using Git**. I enjoy **learning new technologies** and applying them to create **efficient and modern web solutions**.

OBJECTIVE

To secure an **entry-level Full Stack Developer** position where I can leverage my skills in **React.js**, **Node.js/Express**, **databases**, and **Git** to build efficient, user-friendly web applications, while continuously learning and growing with modern web technologies.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, React.js
 - **Backend:** Java (Servlets, JSP), Express.js
 - **Language:** Java, C#, Python (Basic)
 - **Database:** MySQL, PostgreSQL, MongoDB
 - **Tools:** Git, GitHub, VS Code, Eclipse, Postman
-

EXPERIENCE

Full Stack Developer Intern – *Technical Core Engineers (Tecoreng)* [Company Profile](#)

December 2025 – Present

- Learning and building **full-stack web applications** using **React.js** (frontend) and **Express.js** (backend).
 - Practicing features like **user login**, **saving/updating/deleting data**, and creating **responsive UI**.
 - Working with **MongoDB** for safe and efficient data storage.
 - Using **Git and GitHub** to **manage and share code** with the team.
-

PROJECTS

• **Blogging Website (React.js, Express.js, PostgreSQL)** [Github](#)

-Developed a multi-user blogging website using React.js, Express.js, and PostgreSQL.

-Implemented authentication, role-based access control, session handling, blog posting, commenting, and admin management for secure and scalable functionality.

• **Shop Management System (C#, MySQL)** [Github](#)

-Developed a Shop Management System desktop application using C# and MySQL.

-Implemented features for inventory, billing, and employee management with proper data validation, error handling, and modular design to improve maintainability and scalability.

• **E-Commerce Website (PHP, PostgreSQL, jQuery)** [Github](#)

-Created an online shopping platform featuring secure user login, product catalog, cart, and order management system. Designed with focus on user experience and data consistency as part of an academic project.

EDUCATION

B. Tech – Computer Engineering | RK University, Rajkot | 2022–2026

Current SGPA: 8.45

12th (Science) – HR College Mairwa, Siwan

10th – DC High School Done, Siwan

CERTIFICATIONS

- **CCNAv7** – Cisco Networking Academy (2023–2024)
- **Foundational C#** – freeCodeCamp (Nov 2024)
- **Java Programming Fundamentals** – Infosys Springboard (Oct 2023)
